Alhija, F. y Levy, A. (2009). Effect size reporting practices in published articles. *Educational & Psychological Measurement*, 69, 2, 245-265.

¹ El orden es estrictamente alfabético, letra por letra (la "ch" y la "ll" no se tomaron como letras compuestas). Asimismo, siguiendo los lineamientos de la American Psychological Association (APA), la "y" se consideró equivalente a "&" (*and*), por lo tanto se alfabetiza en "a".

En el caso de obras publicadas en México D. F. sugerimos que la provincia se abrevie como DF (siguiendo al estilo APA) o D. F. (como se utiliza en México). Para tesis de maestría y disertaciones preferimos acogernos al criterio APA de dar la máxima información sobre la ubicación geográfica del lugar donde se realizaron y respetando las respectivas reglas.
